Name Reservation

Terms & Conditions

Name Reservations are required to ensure that business names are not too similar to names already on record. This helps reduce confusion in the marketplace and reduces the frustration that companies and consumers would face if business names confusingly similar to each other co-existed. A name reservation is not required for numbered names (eg. 3456789 Manitoba Ltd.).

BEFORE SUBMITTING A NAME RESERVATION

1. Read [Choosing your name / Name Availability Guidelines](#).
2. Do some research to determine if there are any identical or confusingly similar names that may conflict with the name you are proposing to register or incorporate. More information is available on our [website](#).

REASONS FOR REJECTION OF NAME

- Prohibited.
- Consists of general words or only describes the nature of business.
- Consists of surname or geographical name only.
- Consists of initials only (consider adding a descriptive element).
- Too similar to other name(s).
- Obscene or on public grounds objectionable.
- Distinctive element should be added.
- Descriptive element should be added.

If the name is not available, a new name must be selected, AND a new Reservation form AND FEE will have to be filed. Careful selection and research of a name may save you time and money.

It is your responsibility to ensure that the name you choose is not identical or confusingly similar to an existing trademark, business, association or body corporate. If anyone complains about your name, and that complaint is held to be valid, it will be your obligation to change your name. The Companies Office does not provide any guarantee or warranty that the obtaining of a name reservation, or a subsequent registration, means that the name that you have chosen will not be the subject of such a complaint or direction to change your name.

Reservation of a name is not "protection" or a "guarantee" that your name is automatically available. Use of a name is done at the risk of the user.

I have read the [Choosing your name / Name Availability Guidelines](#).
